

Profile

Driven and detail-oriented MERN Stack Developer and third-year Computer Science Engineering (CSE) student at Ch. Devi Lal State Institute of Engineering and Technology. Skilled in MongoDB, Express.js, React, and Node.js, along with HTML, CSS, JavaScript, Java, and MySQL. Proficient in building scalable full-stack applications, creating responsive front-end designs, and implementing efficient back-end functionality. Passionate about developing innovative web solutions and continuously enhancing technical expertise. Seeking opportunities in Full-Stack Web Development to contribute to impactful projects and gain hands-on industry experience.

Skills

Technical Skills

- Programming Languages: JavaScript, Java, SQL, HTML5, CSS3, C++, Python
- Full-Stack Development: Proficient in MERN stack (MongoDB, Express.js, React, Node.js) for building scalable web applications
- Front-End Development: Expertise in React.js, HTML5, CSS3, and JavaScript to create dynamic and responsive user interfaces
- Back-End Development: Strong knowledge of Node.js and Express.js for server-side development and API integration
- Database Management: Experience working with MongoDB and MySQL for efficient data handling
- Responsive Design: Skilled in creating cross-platform and adaptive layouts for optimal user experience
- Version Control: Proficient in Git and GitHub for source code management and collaboration
- Software Development: Knowledge of Agile and Scrum methodologies for efficient project execution
- Core Concepts: Strong understanding of Operating Systems, DBMS, OOP, and Data Structures

Soft Skills

- Attention to detail and a commitment to high-quality output
- Strong analytical and problem-solving abilities
- Effective teamwork and collaboration in diverse environments

Education

Ch. Devi Lal State Institute of Engineering & Technology, Panni Wala Mota.	Sirsa, Haryana
B.Tech in Computer Science and Engineering	Expected Graduation: [JULY, 2026]
Mahatma Gandhi Inter College.	Gorakhpur, Uttar Pradesh
Intermediate (U.P. Board) 2021	Percentage:68.2%

Projects

Gmail Clone App MERN Stack

Brief:

- Developed a **full-stack Gmail Clone** using the **MERN stack** to replicate essential email functionalities such as user authentication, email sending/receiving, and real-time updates.

Technology used:

- REACT , NODE.Js , EXPRESS , AND MONGODB

Key Feature:

- Mention if the platform was optimized for mobile devices
- Describe the impact on user engagement, conversion rates, or sales.
- Highlight any measurable impact on business growth, such as an increase in sales, customer retention, or market reach.

Airbnb-Clone App MERN Stack

Technology used:

- REACT , NODE.Js , EXPRESS , AND MONGODB

Description:

A full-stack web application built using the MERN stack that replicates the core functionalities of Airbnb. It allows users to browse, book, and list rental properties with a responsive and intuitive user interface.

Impact:

- Provided users with a seamless property rental experience.
- Demonstrated proficiency in full-stack development and RESTful API integration.

Training and certificates

- Udemy course (FULL STACK WEB DEVELOPMEMT)
 - MERN Stack Development Course (30 Days Coding)
 - 6 weeks Training in Web Development from Vidhun LEarnify
- [1 JULY 2024-10 AUG 2024]
